Human Resouces Manager,
EY Nigeria,
10th & 13th Flooors,UBA House,57 Marina,
Lagos,
Nigeria
Sir/Ma,

I am very interested in the entry level position in your company. I had Bachelor in Aquaculture and Fisheries Management with a second class upper division from the University of Ibadan. Apart from this, I have a lot of qualities which makes me capable of obtaining entry position in your company.

I possess excellent knowledge in computer, ability to speak good English, ability to meet up before the deadline and to work under pressure.

I have worked as an assistant researcher at National Institute of Freshwater Fisheries Research which has also equipped me with basic research tools and also made me result oriented. I believe with this, I will be able to contribute my quota to the development of the Organization.

I hope to hear from you soon.
