## PERSONAL PROFILE

A competent graduate engineer with knowledge of designing, developing and maintaining electrical systems and components to required specifications, focusing on economy, safety, reliability, quality and sustainability.

Having a comprehensive understanding of electrical health and safety regulations, Dotun is currently looking for a suitable electrical engineering graduate position.

## KEY SKILLS

- Installation and connection of :
  - AC & DC equipment, commercial/industrial three phase switchgear, monitoring equipment and protective devices.
  - Single phase and three phase commercial/industrial motors and associated starters.
  - Interconnecting cables from switch room to sub mains distribution and final distribution boards for domestic and industrial installations.
- Carry out the safe inspection and testing procedures of commercial/industrial three phase installations and dc process control equipment in accordance with international/local standard.
- Carry out various methods of planning work operations. Using methods like bar charts, Gantt chart, critical path analysis network. Identifying various delaying factors that should be taken into consideration when planning a project and describe, with the aid of a sketch, how these factors can be included in a critical path analysis network.

## PROFESSIONAL EXPERIENCE

Electrical Technician, Kingston College Ibadan, Ijokodo Road, Ibadan oyo State.

June 2018 -Till date.

- Maintenance of Generators and all electrical installations.
- Maintenance of college IT equipment and gadgets.

Electrical Technician, Harvest Feed and Agro Processing, Siun/Ogere Road, Ajura Ogun State. October 2017- March 2018.

- General electrical installation and maintenance of Motors. Pumps and Generators.

Volunteer Electrical Technician, Bonny Vocational Center, Bonny Island, Rivers State. January 2017 to June 2017

- Installation of Three phase electric motor control circuit with remote start and stop.
- Installation and control of protective, control and monitoring equipment.
- Carry out safe inspection and tests on installations.
