SKILLS

IT

- Familiar with the fundamentals of frontend web development (HTML, CSS and JavaScript (Vue)).
- Proficient use of Microsoft Office tools as part of my coursework. Also used the internet for research (Assignments, group works, and my project) and know how to search, find and collect relevant background information.
- Introduced to ArcGIS, AutoCAD, Matlab and MySQL (Workbench).

Analytical/Problem Solving

- Possess the ability to clarify the nature of problems, evaluate alternatives, through critical and analytical thinking, and generate new ideas for solving such problems through effective creative thinking.
- Able to draw specific conclusions from a set of general observations or set of facts.
- Capable of reading charts and drawing conclusions from results.

Adaptability

- Capacity to adapt to new situations & settings and an above average level of tolerance for change.
- Flexibility to adapt to the needs of the moment.

Communication

- A developed ability to present opinions and ideas in an open, objective way during the period of my coursework through assigned group projects.
- Also acquired the ability to write clearly and concisely as well as to edit a written text to make sure the message is as clear, concise and as accurate as possible.
- Ability to listen attentively and speak effectively.

Teamwork

- Experienced teamwork from working with different colleagues to prepare and give group presentations on university group assignments.
- Established effective relationships with school colleagues (teachers and support staff) during my National Youth Service Corps placement.

Interpersonal

- Able to interact successfully with a wide range of people.
- Able to empathize with others.

Independence: Possess the ability to do whatever is ask of me efficiently in an independent manner when required.
