SKILLS

Computing skills- proficiency in Microsoft Excel using some technical functions, Microsoft Word, power point, and SPSS, STATA.

Attention to quality- I take pride in my work and aim for my highest possible standard. I made the various jobs that I have had enjoyable by setting myself high standards of cleanliness, speed and accuracy.

Excellent communication skills- I learned to establish effective working relationships quickly with people, often very different to me, in the variety of jobs that I have taken on with testimonies from my other co-workers especially in my last job

Willingness to learn- I have always been a keen learner, and have picked up new systems quickly in my various jobs. I learnt to use the life application in my last employment quite fast to the amazement of my boss which led to me being saddled with greater responsibilities.

Problemsolving- I have a questioning and determined attitude to problems. This reflects in the various roles I have taken up as an undergraduate.

HOBBIES Organizing, Solving problems and reading.
