

MICHAEL MONDAY OSARETIN

7th Jan. 2023

Dear Sir/Ma,

I am writing to express my interest in securing an Associate position at your Organisation. I am a HND holder of Engineering candidate at Grace Polytechnic, Surulere Lagos, specializing in Electrical/Electronics Engineering. I come from a solid technical background with a strong interest in business and a passion towards strategy. I have maintained a Upper credit (3.02GPA) through a well-balanced program of study as well as some professional studies like Human resource management, Health safety and environmental and Project Management Professional, which is not only very analytical and technical by nature but also helps to build leadership and team building qualities. I am extremely impressed with company's approach to strategy consulting, especially within the Business Development and Innovation practice areas. I believe my academic background, business knowledge and industry experiences have provided me with the credentials needed to thrive as an Associate.

I worked as a Electrical professional, Electrical design strategic issues related to technology process improvement. I gained solid research, analytical and problem solving skills while working in Ogun state water corporation Yemoji ijobu ode as I T student. My background in generating innovative ideas and strategies to improve processes has provided me with a deeper understanding of multifaceted problems that companies encounter in their daily operations. Moreover, because of my little experiences, I fully understand how important it is to have great team dynamics in today's multi-disciplinary business environment.

To date, my experience as an IT professional and Nysc has been extremely rewarding and productive. However, it is through strategy consulting that I can use my analytical aptitude and creative problem solving skills to their fullest. I strongly believe that consulting is a discipline that will force me to view problems not only from the client's standpoint but also from a marketplace, best practices and "think out of the box" point of views.

I would appreciate the opportunity to be interview for the Associate position. Please find enclosed my resume for your review. I can be reached via email michaelmondayosaretin@gmail.com or by phone 08140292513, 09051407015. I enthusiastically look forward to hearing from you soon.

Thank you for your time and consideration.

Sincerely

MICHAEL MONDAY OSARETIN
