## ABOUT ME

---

I am excited to apply for the Accounting intern position for my internship as an accounting major, I've been looking forward to applying for an internship training to experience Accounting in the real world.

During my Four years while in the University, I have studied a wide range of subjects in -depths, I've studied subjects such as Accounting information systems, auditing, cost accounting, computer information systems, economics, Taxation, finance and marketing.

I believe that I have the strong abilities in Accounting knowledge that it takes to be successful.

As an Accounting intern,

I have a strong abilities and skills to bring to the table, I usually attend online courses and a special class taking basic accounting courses.

I am full of enthusiasm, self motivated and finance analyst, I possess excellent organizational skills, verbal and written communication skills. I am motivated to learn, grow and to have a deep understanding of the finance industry. I have strong analytical and problem solving skills coupled with the ability to make well thought out decisions whilst taking a proactive approach to searching for new and creative ideas.

Thank you for your time and consideration of my application. I look forward to hearing more about your company. I am excited to learn from experienced professionals in the Accounting field and to discover what it's like to be an accountant.

Sincerely,
